## Description

---

The **Altelix NF141206VM** Vented NEMA Weatherproof Enclosure with Non-Metallic Equipment Mounting Plate features a non-metallic and RF transparent 0.20" (5mm) thick polyester equipment mounting plate.

This RF transparent enclosure and non-metallic equipment mounting plate are ideal for wireless applications including WiFi, RFID, IoT, Cellular and more. The non-metallic materials will not interfere with the operation of wireless gear. In addition, mounting radios to the Polyester equipment mounting plate can be done simply by using self-tapping screws. The generous size of this enclosure accommodates a wide range of equipment.

### Extreme Protection Built to Last

This JIC style enclosure is dent-proof, corrosion resistant and UV stable. The FRP material is non-conductive and RF transparent. It is suitable for use in the harshest outdoor environments. It can be drilled and modified by the installer to suit unique site requirements.

### Ventilation

This enclosure features two 4 inch air vents. Rain shields help prevent rainwater from entering the enclosure.

### Mounting

Stainless steel brackets are included for secure wall mounting. Optional flange and pole mounting kits are available.
