## 21u Door for ROY2214

### Clean up your installs!

Preventing meddlers from tampering with your expensive equipment hasn't always been easy...until now! Introducing our new Royal Rack Doors! The vented mesh front offers a professional look while providing steady airflow within your rack.

**Quicker Than A Snap!**  
Our rack doors are engineered with a unique installation feature we like to call "Quicker Than A Snap!" Most rack doors on the market install with screws and hinges which, without a second person helping, can be a hassle and take forever...but not ours! With the installer in mind, we've created our door with a spring loaded tab system which secures the door in place. This awesome attribute gives you the ability to install or remove our door within milliseconds.

**Face Off**  
In the rare case you've got a custom face plate for your rack, we've designed our rack door so the face plate is replaceable. So, go on...make your next rack install custom to the extreme!

**Air Flow**  
When it comes to rack installation, proper ventilation is always a priority. That's why the face plate of our door is mesh-style, which provides essential air flow within your cabinet keeping your equipment cool..

**Lock Stock And 2 Extra Keys**  
Doors just wouldn't have the same effect if you weren't able to lock them. So, naturally our rack doors are equipped with a set of keys and an industrial keyhole locking.

**Kick It In Reverse**  
Weather you're looking for a right or left swing, we've got you covered. Our universal rack door can be installed on either side. Also, with our "Quicker Than A Snap!" feature you can remove it from the left side and move it the right side extremely fast and easy.

**We've Got Your Back!**  
Most circumstances call for just one door installed on the front of your rack. However, when your job calls for a door on the front and back, let's just say...we've got your back! Our rack doors install just as fast and easy on the backside as they do on the front.

**Warranty Information**  
This product carries a LIMITED LIFETIME WARRANTY on both parts and labor. Should your component fail to operate properly at any time during the warranty period, the manufacturer will repair or replace (at our option) the item barring any indication of misuse or abuse. Freight to an authorized facility is paid by the customer. Return freight is paid by the manufacturer. Warranty registration occurred automatically at the time your order was placed. There is no need to complete or mail in additional paperwork. If you have any questions about the operation or installation of this product, please call our distributor, Skywalker Communications at (800) 844-9555 or (636) 272-8025. Skywalker Communications hours of operation are from 8am to 5pm, Central Standard Time.
